* NodeLine Phone Services and the Broadband Bundling Option.

Both **Easy Broadband** and **Easy Reach** require an active landline phone service to facilitate the ADSL connection. In contrast **Easy Naked** does not require an active phone service; and **Easy Bundle** inherently includes the landline phone service component.

On **Easy Broadband** and **Easy Reach**, you can use another service provider for the phone line associated with the broadband, and the standard monthly broadband price applies. Or, you can transfer your phone service to **NodeLine**; Internode's landline phone service. NodeLine delivers great value calls; and of course you'll keep your current phone number and continue to use your phone exactly as before.

- On **Easy Broadband**, that means that the 'bundled' pricing applies – a saving of \$20 per month on your broadband bill!
- The same \$20 per month discount applies to **Easy Reach** services in selected areas only. Outside of these areas, the bundling discount does not apply. You can check your area by entering your phone number into www.internode.on.net/coverage.

Our **NodeLine Business Value** phone services are available Australia-wide for just \$34.95 per month. Find out more about NodeLine business phone services at www.internode.on.net/business/nodeline. Further details on bundling are available at www.internode.on.net/bundling.

** Internode Easy Naked now Bundled with NodePhone VoIP.

The new **Easy Naked** plans now include an Internode NodePhone2-Special plan – fully featured, high quality VoIP with \$10 monthly call credit – at no additional charge. Further details on NodePhone are available at www.internode.on.net/business/nodephone.

Need a Router?

Bring your own or choose a pre-configured & fully supported Internode ADSL2+ router. These routers have been selected for their combination of quality, features, reliability and cost; and support the full range of ADSL protocols including ADSL2+ Annex M. A \$15 delivery fee applies Australia-wide.

All routers include one ADSL2+ inline filter/splitter. Additional inline filter/splitters (\$19) may also be ordered – note that one is required for each telephone, fax, modem or other analog device on the same line as your ADSL. For optimal ADSL2+ performance we recommend the C10-100E Central Filter for \$29 (professional installation by a licensed cabler is required). Further details available at www.internode.on.net/business/internet/hardware.

Price List : Internode Business ADSL

Internode ADSL Business Pack Features:

- No Shaping with Capped Excess** – Business Pack services are **never** shaped by Internode, regardless of your download volumes:
 - if your download quota is exceeded then the excess downloads are charged at only \$5 per Gbyte (calculated at 0.5 cents per Mbyte).
 - this 'excess traffic charge' is capped to a maximum of \$299 per month.

There's also no 'peak / off peak' limitations on your quota – use the service how and when you want to.

Priority Business Support - Internode provides free, expert and friendly Help Desk support available to you 7 days a week. Business Pack features priority access to our helpdesk, and includes a Service Level Agreement with defined performance and availability targets.

Annex M Capable – Easy Broadband (and Easy Naked services delivered via the Agile network) include support for ADSL2+ Annex M, with enhanced upload speeds.

Static IP Address - These are 'Layer 2' static IP services, suitable for hosting servers and operating Internet Virtual Private Networks. If required, a /29 IP subnet can be provided at no additional charge.

Free Subdomain - Subdomain under **on.net** to link to your own server. Choose your own subdomain name - e.g. 'mycompany.on.net' - subject to approval by Internode.

Five Free Email Accounts - Up to 5 free email accounts can be established, all with email spam and virus filtering.

Unmetered Content – Includes over 100 online streaming radio stations; the extensive games.on.net server farms for low ping gaming; massive mirrors for common file downloads; ABC iView; TiVo and fetchtv online content and more.

Included Dialup Account - Includes a dialup account, for when you're away from your broadband connection, with 10 included hours per month then \$1/hour pay-as-you-go. Dialup access is available Australia-wide at local call rates.

Global Roaming Facility - We offer a global roaming facility for dialup, WiFi and hotel Ethernet access across the world via iPass. Separate usage charges apply – see www.internode.on.net/roaming for details.

NodePhone® VoIP Ready – Save money with our high quality, low cost Voice over IP solution – www.internode.on.net/nodephone.

Total Minimum Price

The total minimum price depends on the setup option and plan that you select, as shown in the following two tables. Prices indicated with a * are applicable only in conjunction with a NodeLine phone service. If you need to purchase equipment or arrange premises cabling, then your total costs may be higher.

1. Total Minimum Price – Monthly Contract

The following table shows the total minimum price on a monthly contract for each plan - ie the standard setup charge of \$129, plus one month of broadband plan rental.

- The total minimum price will be \$90 less if your Easy Bundle, Easy Naked or Easy Reach can be setup via a churn; or if your Easy Bundle can be setup via converting an active telephone service. The total minimum price will be \$80 less if your Easy Broadband service can be setup as a Single Service Migration.*

Easy Broadband Business	30 GB	200 GB	300 GB	1,000 GB

Total Minimum Price for Easy Reach (with bundling discount)*	\$198.95*	\$208.95*	\$228.95*	\$278.95*

2. Total Minimum Price – 24 Month Contract

The following table shows the total minimum price on a 24 month contract for each plan over a 24 month period - ie the reduced setup charge of \$79, plus 24 months of plan rental. If you cancel your service during the initial 24 month period, you are liable for an **early cancellation charge**. This charge is \$120 in the first 12 months, reducing to \$65 during the second 12 months

- The total minimum price will be \$79 less if your Easy Broadband service can be setup as a Single Service Migration; or if your Easy Bundle, Easy Naked or Easy Reach can be setup via a churn; or if your Easy Bundle can be setup via converting an active telephone service.*
