Business-Fast-120	120 Gbytes	<b>\$209</b>	\$219
Business-Fast-200	200 Gbytes	<b>\$269</b>	\$279

# Business ADSL Features

**No Shaping** - Business ADSL services are **never** shaped by Internode, regardless of your download volumes:

- there is no download quota at all on the Business-Standard-Unlimited plan – this is always a fixed price, regardless of your usage.
- on the other Business plan types, if your download quota is exceeded then the excess downloads are charged at only \$5 per Gbyte (calculated at 0.5 cents per Mbyte). The total monthly charge (base rental plus excess charges) is limited to a Monthly Price Cap of \$499 on Business ADSL Standard plans.
- Business-Standard-Unlimited services are single location, single connection plans with no excess charges. Should multiple connections be established with this plan, subsequent connections may incur an additional charge of \$1 per connected hour.

**Priority Business Support** - Internode provides free, expert and friendly Help Desk support available to you 7 days a week. Business ADSL features priority access to our helpdesk, and includes a Service Level Agreement with defined performance and availability targets.

**Your Choice of Contract** - Choose from a discounted setup charge on a 24 month contract; or pay the full setup charge and have a rolling one month contract – it's your choice. On the 24 month contract, an early cancellation charge of \$120 applies during the first 12 months, reducing to \$65 during the second twelve months. Further details available at [www.internode.on.net/contract](http://www.internode.on.net/contract).

**Static IP Address** - These are 'Layer 2' static IP services, suitable for hosting servers and operating Internet Virtual Private Networks. An additional 6 static IP addresses can be provided for \$20 per month; with options for additional address space also available.

**Annex M Capable** - Internode Business Extreme® ADSL2+ and NakedExtreme ADSL2+ services include support for ADSL2+ Annex M, with enhanced upload speeds.

**Free .on.net Subdomain Name** - Free .on.net subdomain name to link to your own server. Choose your own subdomain name – eg 'mycompany.on.net' - subject to approval by Internode.

**Included Dialup Account** - Includes a dialup account, for when you're away from your broadband connection, with 10 included hours per month then \$1/hour pay-as-you-go. Dialup access is available Australia-wide at local call rates. Optionally, for an extra \$10 per month you can have 300 included hours of dialup per month.

**Global Roaming Facility** - We offer a global roaming facility for dialup, WiFi and hotel Ethernet access across the world via iPass. Separate usage charges apply – see [www.internode.on.net/roaming](http://www.internode.on.net/roaming) for details.

**Five Free Email Accounts** - Up to 5 free email accounts can be established, all with email spam and virus filtering at no additional charge.

**Unmetered Content** - Unmetered content doesn't use up your monthly download quota. This includes our Online Streaming Radio servers; our extensive Online Games network for low ping gaming; our mirror servers for file downloads; and other selected content sources.

**No Upload Surcharge** - All upload direction data is free of charge, and doesn't count against your monthly quota. There's also no 'peak / off peak' limitations on your quota – use the service how and when you want to.

**NodePhone® Ready** – Save money with our high quality, low cost Voice over IP solution – details at [www.internode.on.net/nodephone](http://www.internode.on.net/nodephone). *Business-NakedExtreme customers can select a special VoIP plan with \$10 included call credit every month - at no additional cost.*

**Your Choice of Hardware** - Bring your own ADSL router, or buy one pre-configured from us at a competitive rate. All routers supplied by Internode are pre-configured with your Internode username, password and settings; and include 24 months fast replacement warranty. A \$15 delivery fee applies Australia-wide.

The following routers have been selected for their combination of quality, features, reliability and cost. They support the full range of ADSL protocols – including ADSL2+ Annex A, M & L – and feature Stateful Packet Inspection firewalls, along with Quality of Service prioritisation for voice over IP.

Router Model	Ethernet Switch	802.11 WiFi	VoIP Phone Ports	USB for 3G WAN	Internet VPN	Target	Price
Billion 7300RA	4 x 100 Mbps	x	x	x	x	Home	\$99
Billion 7300GRA	4 x 100 Mbps	b+g	x	x	x	Home	\$149
Billion 7401VGP-R3	4 x 100 Mbps	b+g	1 port	x	x	Home & SOHO	\$199
Billion 7404VGP-X	4 x 100 Mbps	b+g	2 ports	✓	x	Home & SOHO	\$299
Billion 7404VGO-X	4 x 100 Mbps	b+g	2 ports	✓	✓	SOHO	\$349
Billion 7404VNP-X	4 x Gigabit	b+g+n	2 ports	✓	x	SOHO	\$449
Billion 7404VNO-X	4 x Gigabit	b+g+n	2 ports	✓	✓	SOHO & Business	\$499
Cisco 877-M	4 x 100 Mbps	x	x	x	✓✓	Business	\$999
Cisco 877-M-W	4 x 100 Mbps	b+g	x	x	✓✓	Business	\$1,399

All Internode routers include a quality C10-245M ADSL filter/splitter. Additional line filters may also be ordered – note one is required for each telephone, fax, modem or other analog device on the same line as your ADSL.

- C10-245M ADSL Line Filter/Splitter: \$19
- C10-645M ADSL 610 Line Filter/Splitter (suitable for the older '600 series' phone points) : \$24
- C10-345M ADSL Wall Mount Filter/Splitter (suitable for most wall mount telephones) : \$29

For optimal Extreme® ADSL2+ performance we recommend the C10-100E Central Filter (note installation by a licensed cabler is required): \$29
