* NodeLine Phone Services and the Broadband Bundling Option.

Both **Easy Broadband** and **Easy Reach** require an active landline phone service to facilitate the ADSL connection. In contrast **Easy Naked** does not require an active phone service; and **Easy Bundle** inherently includes the landline phone service component. On **Easy Broadband** and **Easy Reach**, you can use another service provider for the phone line associated with the broadband, and the standard monthly broadband price applies. Or, you can transfer your phone service to **NodeLine**; Internode's landline phone service. NodeLine delivers great value calls; and of course you'll keep your current phone number and continue to use your phone exactly as before.

- On **Easy Broadband**, that means that the 'bundled' pricing applies – a saving of \$20 per month on your broadband bill!
- The same \$20 per month discount applies to **Easy Reach** services in selected areas only. Outside of these areas, the bundling discount does not apply. You can check your area by entering your phone number into www.internode.on.net/coverage.

Our **NodeLine Home Value** phone services are available Australia-wide for just \$29.95 per month. Find out more about NodeLine phone services at www.internode.on.net/nodephone. Further details on bundling are available at www.internode.on.net/bundling.

** Internode Easy Naked now Bundled with NodePhone VoIP.

The new **Easy Naked** plans now include an Internode NodePhone2-Special plan – fully featured, high quality VoIP with \$10 monthly call credit. In most cases you can even retain your current telephone number. Further details are available at www.internode.on.net/nodephone.

Need a Router?

Bring your own or choose a [pre-configured & fully supported](#) Internode ADSL2+ router. These routers have been selected for their combination of quality, features, reliability and cost; and support the full range of ADSL protocols including ADSL2+ Annex M. A \$15 delivery fee applies Australia-wide.

All routers include one ADSL2+ inline filter/splitter. Additional inline filter/splitters (\$19) may also be ordered – note that one is required for each telephone, fax, modem or other analog device on the same line as your ADSL. For optimal ADSL2+ performance we recommend the C10-100E Central Filter for \$29 (professional installation by a licensed cabler is required). Further details available at www.internode.on.net/hardware.

Internode ADSL Features

Fixed Monthly Charge – Enjoy your broadband without the nasty surprises! Compare the quota deal for Internode ADSL:

- **No excess charges** : if your monthly quota is exceeded, we simply shape your traffic for the rest of the month. The shaping speed is 256/256 kbps on the Easy Broadband, Easy Bundle & Easy Naked plans; and 128/128 kbps on Easy Reach. And if desired, you can purchase a Data Block online for an instant quota top up - your spend is totally under your control.
- **Anytime quota (download+upload)** : use the Internet when you like - your quota isn't parcelled into 'friendly' & 'unfriendly' hours of usage.
- **Unmetered content** : including over 100 online streaming radio stations; the extensive games.on.net server farms for low ping gaming; massive mirrors for common file downloads; ABC iView; TiVo and fetchtv online content and more.

Expert Help Desk - Internode provides free, expert and friendly Help Desk support available to you 7 days a week.

Annex M Capable – Easy Broadband (and Easy Naked services via the Agile network) include support for Annex M, with enhanced upload speeds.

Five Free Email Accounts - Up to 5 free email accounts can be established, all with email spam and virus filtering.

Free Webspace - Free 50 Mbyte webspace is available to all Internode Residential ADSL customers for personal, non-commercial use.

Included Dialup Account - Includes a dialup account, for when you're away from your broadband connection, with 10 included hours per month then \$1/hour pay-as-you-go. Dialup access is available Australia-wide at local call rates.

Global Roaming Facility - We offer a global roaming facility for dialup, WiFi and hotel Ethernet access across the world via iPass. Separate usage charges apply – see www.internode.on.net/roaming for details.

Security Protection - Internode protects Residential customers by filtering ports which are generally used to propagate network worms and attacks. You are welcome to disable that protection via an online web page if you wish.

Dynamic IP Address - These are 'Layer 2' dynamic IP services, suitable for home broadband access. If you need static IP addressing to host servers, simply select a Power Pack or Business Pack option.

NodePhone@ VoIP Ready – Save money with our high quality, low cost Voice over IP solution – www.internode.on.net/nodephone.

New – Internode Power Packs and Business Packs

Internode Easy plans provide the complete broadband solution for residential customers, with a range of useful features included at no extra charge. Internet enthusiasts and business customers can now also select enhanced features for their Internode Easy service, via an option pack:

- A **Power Pack** can be added to any Internode Easy plan, for an additional \$10 per month. This provides a static IP address, and free uploads - your monthly quota is counted in the download direction only. You'll also receive a *power.on.net* subdomain; as well as faster excess shaping – 512 kbps/unshaped on the Easy Broadband, Easy Bundle & Easy Naked plans; and 256 kbps/unshaped on the Easy Reach plans.
- Alternatively, a **Business Pack** can be added to any Internode Easy plan, for an additional \$30 per month. This provides a static IP address with the option of a /29 IP subnet at no additional charge, and once again your monthly quota is counted in the download direction only. You'll also receive an *.on.net* subdomain; and excess traffic is not shaped – instead it is charged at \$5 per GB download, capped to a maximum of \$299 per month. The Business Pack also includes Priority Business Support and a Service Level Agreement.

Total Minimum Price

The total minimum price depends on the setup option and plan that you select; as shown in the following two tables. Prices indicated with a * are applicable only in conjunction with a Nodeline phone service. If you need to purchase equipment or arrange premises cabling, then your total costs may be higher.

1. Total Minimum Price – Monthly Contract

The following table shows the total minimum price on a monthly contract for each plan - ie the standard setup charge of \$129, plus one month of broadband plan rental.

The total minimum price will be \$90 less if your Easy Bundle, Easy Naked or Easy Reach can be setup via a churn; or if your Easy Bundle can be setup via converting an active telephone service. The total minimum price will be \$80 less if your Easy Broadband service can be setup as a Single Service Migration.

| Easy Broadband | 30 GB | 200 GB | 300 GB | 1,000 GB |
|--|-----------|-----------|-----------|-----------|
| Total Minimum Price for Easy Broadband: | \$178.95 | \$198.95 | \$218.95 | \$268.95 |
| Total Minimum Price for Easy Broadband (with bundling discount)* | \$158.95* | \$178.95* | \$198.95* | \$248.95* |
| Easy Bundle | 30 GB | 200 GB | 300 GB | 300 GB |
| Total Minimum Price for Easy Bundle: | \$188.90 | \$208.90 | \$228.90 | \$228.90 |
| Easy Naked | 30 GB | 200 GB | 300 GB | 1,000 GB |
| Total Minimum Price for Easy Naked: | \$188.95 | \$208.95 | \$228.95 | \$278.95 |
| Easy Reach | 5 GB | 60 GB | 100 GB | 250 GB |
| Total Minimum Price for Easy Reach: | \$188.95 | \$198.95 | \$218.95 | \$268.95 |
| Total Minimum Price for Easy Reach (with bundling discount)* | \$168.95* | \$178.95* | \$198.95* | \$248.95* |

2. Total Minimum Price – 24 Month Contract

The following table shows the total minimum price on a 24 month contract for each plan - ie the reduced setup charge of \$79, plus 24 months of plan rental. If you cancel your service during the initial 24 month period, you are liable for an **early cancellation charge**. This charge is \$120 in the first 12 months, reducing to \$65 during the second 12 months.

The total minimum price will be \$79 less if your Easy Broadband service can be setup as a Single Service Migration; or if your Easy Bundle, Easy Naked or Easy Reach can be setup via a churn; or if your Easy Bundle can be setup via converting an active telephone service.
