SOHO-Fast-100	100 Gbytes	\$139.95	\$149.95
SOHO-Fast-200	200 Gbytes	\$189.95	\$199.95

SOHO ADSL Features

Fixed Monthly Charge - Enjoy your broadband without the nasty surprises! Compare the quota deal for Internode SOHO ADSL:

- **No excess charges** : if your monthly download quota is exceeded, we simply shape your traffic to 128 kilobits per second downstream for the rest of the month – and there’s no shaping at all on the upstream. If desired, you can purchase a Data Block online for an instant quota top up. These are only \$5 for 2 GB – and your spend is totally under your control.
- **Unlimited ADSL Standard** : this is a single location, single connection plan with no Internode shaping at all! Should multiple connections be established with this plan, subsequent connections may incur an additional charge of \$1 per connected hour.
- **Uploads don’t consume quota** : look out for this one! Upload traffic will be 10% or more of your Internet usage – it’s a significant benefit to you that this doesn’t consume your quota on any Internode SOHO ADSL plan.
- **‘Anytime’ quota** : you can use the Internet whenever you like. Internode quota isn’t parcelled into ‘friendly’ & ‘unfriendly’ hours of usage.
- **Unmetered content** : this doesn’t use up your monthly download quota at all! It includes over 100 online streaming radio stations; the extensive games.on.net server farms for low ping gaming; massive mirrors for common file downloads; ABC iView; TiVo online and more – and none of it consumes your quota.

Your Choice of Contract - Choose from a discounted setup charge on a 24 month contract; or pay the full setup charge and have a rolling one month contract – it’s your choice. The 24 month contract isn’t exactly onerous either - an early cancellation charge of \$120 applies during the first 12 months, reducing to \$65 during the second twelve months. Further details available at www.internode.on.net/contract.

Expert Help Desk - Internode provides free, expert and friendly Help Desk support available to you 7 days a week.

Static IP Address - These are 'Layer 2' static IP services, suitable for hosting servers and operating Internet Virtual Private Networks.

Annex M Capable - Internode SOHO Extreme® ADSL2+ and SOHO NakedExtreme ADSL2+ services include support for ADSL2+ Annex M, with enhanced upload speeds.

Five Free Email Accounts - Up to 5 free email accounts can be established, all with email spam and virus filtering at no additional charge.

Free Webspace - Free 50 Mbyte webspace is available to all Internode SOHO ADSL customers for personal, non-commercial use.

Unmetered Content - Unmetered content doesn’t use up your monthly download quota. This includes our Online Streaming Radio servers; our extensive Online Games network for low ping gaming; our mirror servers for file downloads; and other selected content sources.

Free Usenet - Internode broadband customers can access our Premium Usenet service at no additional charge, note these downloads are counted toward your monthly quota.

Free soho.on.net Subdomain Name - Free soho.on.net subdomain name to link to your own server. Choose your own subdomain name - e.g. 'mycompany.soho.on.net' - subject to approval by Internode.

Included Dialup Account - Includes a dialup account, for when you’re away from your broadband connection, with 10 included hours per month then \$1/hour pay-as-you-go. Dialup access is available Australia-wide at local call rates. Optionally, for an extra \$10 per month you can have 300 included hours of dialup per month.

Global Roaming Facility - We offer a global roaming facility for dialup, WiFi and hotel Ethernet access across the world via iPass. Separate usage charges apply – see www.internode.on.net/roaming for details.

NodePhone® Ready – Save money with our high quality, low cost Voice over IP solution – details at www.internode.on.net/nodephone. SOHO-NakedExtreme customers can also enjoy a special VoIP plan with \$10 included call credit every month - at no additional cost.

Your Choice of Hardware - Bring your own ADSL router, or buy one pre-configured from us at a competitive rate. All routers supplied by Internode are pre-configured with your Internode username, password and settings; and include 24 months fast replacement warranty. A \$15 delivery fee applies Australia-wide.

The following routers have been selected for their combination of quality, features, reliability and cost. They support the full range of ADSL protocols – including ADSL2+ Annex A, M & L – and feature Stateful Packet Inspection firewalls, along with Quality of Service prioritisation for voice over IP.

Router Model	Ethernet Switch	802.11 WiFi	VoIP Phone Ports	USB for 3G WAN	Internet VPN	Target	Price
Billion 7401VGP-R3	4 x 100 Mbps	b+g	1 port	x	x	Home & SOHO	\$199
Billion 7404VGP-X	4 x 100 Mbps	b+g	2 ports	✓	x	Home & SOHO	\$299
Billion 7404VGO-X	4 x 100 Mbps	b+g	2 ports	✓	✓	SOHO	\$349
Billion 7404VNO-X	4 x Gigabit	b+g+n	2 ports	✓	✓	SOHO & Business	\$499
Cisco 877-M	4 x 100 Mbps	x	x	x	✓✓	Business	\$999
Cisco 877-M-W	4 x 100 Mbps	b+g	x	x	✓✓	Business	\$1,399

All routers include one C10-245M ADSL filter/splitter. Additional line filters may also be ordered – note one is required for each telephone, fax, modem or other analog device on the same service as your ADSL.

- C10-245M ADSL Line Filter/Splitter: \$19
- C10-645M ADSL 610 Line Filter/Splitter (suitable for the older ‘600 series’ phone points) : \$24
- C10-345M ADSL Wall Mount Filter/Splitter (suitable for most wall mount telephones) : \$29

For optimal Extreme® ADSL2+ performance we recommend the C10-100E Central Filter (note installation by a licensed cabler is required): \$29
