

Critical Information Summary:

Easy Reach Business ADSL2+

About the Service

Internode Easy Reach with a Business Pack is an ADSL service that delivers high-speed broadband nationwide, via the Telstra Wholesale broadband access network.

You can use a suitable telephone service from another provider and pay the standard pricing, or you can use an Internode NodeLine telephone service (from \$29.95 per month) and receive a monthly bundling discount on your broadband. A Critical Information Summary for NodeLine is available separately:

Included Features

There are a range of value-added services included with Easy Reach Business, and these are documented on our website.

Minimum Term

- A minimum term of 1 month applies to all Easy Broadband services.
- If bundled, NodeLine has a minimum term of 3 months.

Early Cancellation Fees

- Applies to the 24 month contract term only. These charges cover the costs reasonably incurred by us when the contract commenced.
- If you select a 24 month contract term, and cancel your service during the initial 24 month period, you are liable for an early cancellation charge. The maximum applicable charge is \$300 within the first 6 months.
- Cancelling your broadband service will also cancel any other Internode products you've purchased that are only available when bundled with broadband. If those products have their own contract, you are liable for their associated early cancellation charges.
- Refer to the table below for further detail on cancellation fees

Availability

- Easy Reach availability can be checked using our coverage checker: www.internode.on.net/coverage

Required Equipment

- Easy Reach requires a basic telephone service in order to function
- You can use a suitable telephone service from another provider and pay the standard pricing, or you can use an Internode Nodeline Business telephone service (from \$34.95 per month) and receive a monthly bundling discount on your broadband.
- You will require an ADSL router to connect your Easy Reach Business service. If you don't already have one, Internode can sell you a suitable device at additional cost.

Excess Usage

- There is no automatic excess traffic shaping on Easy Reach with a Business Pack.
- If your Monthly Included Data is exceeded then the excess downloads are charged at \$5 per GB (calculated at 0.5 cents per MB).
- This 'excess traffic charge' is capped to a maximum of \$299 per month.
- Included Data (Quota) is counted as the total of downloads only on Easy Reach with a Business Pack.
- These plans are not eligible for unmetered data inclusions. All data counts as metered usage of your monthly included data quota.
