

# Critical Information Summary

## Internode Mobile SIM Only Plan – Medium

### Information About The Service

#### Service Description

The Internode Mobile SIM Only **Medium Plan** is a \$24.99 per month, SIM only, mobile service with the specified Included Value and Included Data. The underlying network is the Vodafone mobile digital network (3G/4G).

The service includes the following monthly Included Value for use within Australia:

- 16GB Included Data
- Unlimited Calls to Standard Australian Mobile and Landline Numbers (includes 13/1300), SMS & MMS to Australian Numbers.

All Internode mobile plans are prepaid and auto-renew every month until you cancel. Recurring charges are payable monthly in advance, 7 days before the start of the next billing cycle. You can make additional prepayment (Prepaid Balance) if you wish to make any excluded calls or usage that will incur excess charges. Payment options are Direct Debit or Credit Card.

**Promotions and special offers:** This summary does not include any special offers or promotions that may be offered on this plan, such as discounts or bonuses.

#### Minimum Term

Internode Mobile Services are supplied on a rolling month to month basis. You can cancel the Service at any time by notifying us at least 7 days before your next month's charges are due. Subject to your consumer law rights, you will not receive a refund for any charges paid in advance. The unused balance of any Prepaid Balance for usage that is not within the Included Value for your plan will not be refunded to you but will be retained by Internode Pty Ltd.

#### Bundling Arrangements & Mandatory Goods

You do not have to bundle this Service with any other Internode plan. You do not need to purchase handsets or other equipment from Internode.

However, you must have a compatible mobile handset to be able to use this service.

#### Excluded Usage

The **Medium Plan** excludes Excess Data, Calls to International Numbers, SMS and MMS to International Numbers, Calls to Satellite phones, Third Party content, Video Calls to Standard Australian and International Numbers, Directory Assistance and other Enhanced Services. You will need to add additional funds to your Prepaid Balance if you wish to make any excluded calls or usage that will incur excess charges.

Calls and SMS to 19 Numbers, Diversions to International Numbers, Premium SMS, Premium MMS, and International Roaming are not available.

**Excess Data:** The **Medium Plan** has a certain amount of Included Data each monthly billing cycle. If at any time in a billing cycle you use up the amount of Included Data, we will charge \$10 out of your Prepaid Balance to increase the amount of Included Data available in that particular billing cycle by 2GB. If there are insufficient funds in your Prepaid Balance, mobile data will be unavailable until your Prepaid Balance is topped up or your next billing cycle commences.

See Call Rates and Other Usages Rates below for a pricing summary of excluded key usage types. For full rates and a complete understanding of Inclusions & Exclusions, visit [internode.on.net/mobile-callrates](http://internode.on.net/mobile-callrates)

#### Coverage

You can only obtain 4G speeds when you use a 4G-ready phone (LTE 1800/850 MHz) in 4G coverage areas. See our coverage map at [internode.on.net/mobile-coverage](http://internode.on.net/mobile-coverage).

When you are not within a 4G coverage area, the mobile service will automatically switch over to 3G and speeds will be much less than that of 4G. Actual speeds vary due to factors such as location, distance from the base station, local terrain, user numbers, hardware & software configuration, and download source/upload destination.
