

Information About the Service

NodeMobile is a post-paid 'SIM-only' mobile phone service that supports 4G technology. You'll need to bring your own mobile phone handset.

Minimum Term

A minimum term of one month applies to NodeMobile.

Information About Pricing

There are five NodeMobile plans, as shown in the following table:

Plan Name	Monthly Inclusions			Minimum Monthly Charge	Total Minimum Cost	Excess Data
	Standard Call and Message Value	International Call Value	Included Data			
NodeMobile Starter (1117)	\$550	N/A	1 GB	\$15.00	\$25.00	\$10/GB (or part thereof)
NodeMobile Value (1117)	\$550	N/A	2 GB	\$19.99	\$29.99	\$10/GB (or part thereof)
NodeMobile Standard (1117)	Included	None	3 GB	\$24.99	\$34.99	\$10/GB (or part thereof)
NodeMobile Premium (1117)	Included	\$100	4 GB	\$29.99	\$39.99	\$10/GB (or part thereof)
NodeMobile Platinum (1117)	Included	\$300	9 GB	\$37.99	\$47.99	\$10/GB (or part thereof)

The Total Minimum Cost includes a \$10 SIM charge (includes delivery), plus one month of NodeMobile plan rental.

If you use more than the monthly included calls, texts, or data (or use services that are not included) you will incur charges above the minimum monthly charge.

- NodeMobile features spend management tools - including usage notifications, and sub-limits for transaction types.
- Internode reserves the right to restrict services once monthly billings are greater than \$500.
- Included data quota is counted as the total of downloads plus uploads, and does not cover international roaming.
- Excess data usage above your monthly inclusion will be automatically charged at \$10 per GB (or part thereof). If you exceed your monthly data by 10 GB, we may restrict your data use until the next billing period.

Billing data is not received instantly by Internode after usage has occurred, and can be delayed by 2–3 days. This delay means that spend limits can be out of date by the time they are applied. You remain responsible for charges due to usage beyond the spend limit.

Setup & Cancellation Charges

You will need a NodeMobile SIM to use the service.

- NodeMobile setup is \$10. This includes your NodeMobile SIM and delivery anywhere in Australia.
- You have the choice of a new phone number, or you can transfer your existing mobile phone number at no extra charge.

NodeMobile has no early cancellation charges.

- On their NodeMobile usage at www.internode.on.net/myinternode

International Roaming Costs

Using your mobile phone overseas attracts significantly higher rates than standard NodeMobile charges:

- All call and data charges while roaming are excluded from your monthly included value amounts.
- Charges apply to all data sent and received, and also apply for both making and receiving calls when roaming overseas.

While roaming overseas, usage details may take days or weeks to reach Internode, meaning you may not receive timely usage warnings.

Regardless, you are responsible for all charges made on your service when overseas. More information is available at www.internode.on.net/nodemobile/call_rates/international_roaming

Fair Usage Policy

We've partnered with Optus to deliver the NodeMobile service and the Optus Fair Use Policy applies to your use of NodeMobile. The Optus Fair Use Policy can be found in the NodeMobile Voice Service Description at: www.internode.on.net/about/legal
