

# Critical Information Summary:

## TurboFibre FTTB

### About the Service

The TurboFibre FTTB service is a broadband internet service which uses Vision Network's Fibre to the Building (FTTB) Network to deliver internet connectivity to the Network Boundary Point at your premises.

Internode TurboFibre plan includes the following components:

- Unlimited data with a Typical Evening Download speed of 91Mbps and Typical Evening Upload speed of 25Mbps
- FTTB Phone service (no included calls – calls charged at 'Pay As You Go' rates only)

### Early Cancellation Fees

- As this product is provided on a no lock-in contract, there are no early cancellation fees if you choose to cancel.
- However, please be aware that cancelling your Broadband service will also result in a cancellation of any other Internode products you've purchased that are only available when bundled with an Internode Broadband service (such as VOIP Call Packs). Should those products have their own contract, you will be liable for their associated break fees.

### Minimum Term

Internode FTTB plan is available on a no lock-in contract. You may cancel at any time.

### Hardware Non-Return Fees

- If you withdraw an order from us (before your service is activated) and receive the modem we supplied to you, you will need to return the modem to us in good working order within 21 days of withdrawing your order. Otherwise, a \$60 modem fee will apply.

### Plans Details

| Plan Name                                  | Typical Evening Download Speed* | Typical Evening Upload Speed* | Monthly Included Data | FTTB Phone Call Charges | Monthly Charge | Total Min. Charge <sup>#</sup> |
|--|---------------------------------|-------------------------------|-----------------------|-------------------------|----------------|--------------------------------|
| <b>TurboFibre FTTB Unlimited (100Mbps)</b> | 91Mbps                          | 25Mbps                        | Unlimited             | Pay as you go**         | \$74.99        | \$89.99                        |

- <sup>#</sup>Total Minimum Charge on no lock-in contract includes one month of plan fees plus \$15 modem delivery fee.
- **\*FTTB Speeds:** Typical evening download speed is measured between 7pm-11pm. Typical evening upload speed is estimated by reference to the maximum upload speed for the plan. Actual throughput speeds may be slower and could vary due to various factors including interference, customer cabling and equipment, download source, and quality and distance of in-building copper. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable. Actual speed upon installation will be in the range 70-100Mbps (download) and 20-40Mbps (upload).
- TurboFibre plans include unlimited monthly data and are not subject to excess usage fees or restrictions.
- **\*\* Call charges:** Any calls made using your service will be subject to extra charges at pay as you go rates.
- Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility. Standard installations are completed without charge to you. Non-standard installations may require you to pay additional charges.
- Changed or Missed Appointment Fees and Incorrect Call Out Fees may apply if you cancel or reschedule your installation appointment with less than 3 business days' notice or request a technician to fix a fault that is beyond the Network Boundary Point.

### Availability

This service is available at select buildings serviced by Vision Network's FTTB Network. Use our coverage checker [www.internode.on.net](http://www.internode.on.net) to check TurboFibre FTTB availability at your address.

### Required Equipment

- You will be supplied a TurboFibre FTTB ready modem (which is WiFi and VoIP enabled). You require this modem to use your TurboFibre FTTB and FTTB Phone service. Third party modems are not supported. The cost of the modem is included, however you will be required to pay a \$15 modem delivery fee.
- A technician appointment is required to install any required Turbo Fibre equipment at your address.

- You or an authorised person over 18 years of age will be required to be home on the day of installation for a technician visit. We will advise you of the date and time of the installation appointment once you have received the modem. You should receive the modem within 2-5 working days after it has been dispatched from our warehouse.
- You will also need to supply your own standard phone handset (approved for use in Australia) to use your included FTTB Phone service.
