

NBN™ Key Facts Sheet

This information applies to the following NBN plans delivered on fixed line connections i.e. NBN™ FTTP/B/N/C & HFC: Bronze (NBN12) 100; Bronze (NBN12) 500; Bronze (NBN12) Unlimited; Gold (NBN50) 100; Gold (NBN50) 500; Gold (NBN50) Unlimited; Platinum (NBN100) 100; Platinum (NBN100) 500; Platinum (NBN100) Unlimited.

Below indicates your NBN™ plan’s typical download speeds and online usage during the busy period. The busy period is 7pm-11pm for Residential plans and 9am-5pm for Business plans.

NBN speed tier	NBN12	NBN50	NBN100
Speed label	Basic	Standard Plus	Premium
Typical evening speed (7pm-11pm)	10.0Mbps	43.6Mbps	72.7Mbps
Typical business hours speed (9am-5pm)	10.7Mbps	46.4Mbps	81.5Mbps
Making phone calls (VoIP)	✓	✓	✓
Email, social media & web browsing	✓	✓	✓
Standard Definition (SD) streaming	✓	✓	✓
High Definition (HD) streaming	✗	✓	✓
UHD/4K streaming	✗	✓	✓
# of simultaneous users / devices (approx.)	1-3	3-6	6-9

NBN12, NBN50 and NBN100 indicate the underlying speed tier that your NBN™ plan is on and represent the maximum possible speed that is available outside the busy periods indicated above.

Factors at your premises that can affect data speeds and performance

Poor performance may be caused by...	You may be able to improve this by...
Poor WiFi signal strength or signal interference	Connecting devices via Ethernet cable or by placing modem in an unobstructed area.
Modem, WiFi router or network cables	Using current hardware with technical specifications suitable for your NBN™ plan.
Too many simultaneous users	Managing your household usage according to the above guide.

If your plan is delivered on NBN™ FTTP/B/N/C, your speeds are affected by the length and quality of the copper used by NBN Co. Once your service is activated, we will send you an email stating your line speed as determined by NBN Co (around 3 weeks after activation). If your line can not support the speed tier that your NBN plan is on, you have the option to move to a lower speed plan (if available) or to change providers without contract break fees. Both options include a refund if selected within 10 working days of being sent the email, to be calculated accordingly.

In the event of a power outage: NBN™ services will not function except for NBN™ FTTP services with a working battery backup unit installed.

Medical and security alarm services: Before switching to NBN™, please contact your alarm provider to assess whether your alarm is compatible with an NBN™ service and identify available alternatives if your alarm services are not compatible.
